

University of Colorado
Anschutz Medical Campus

College of Nursing

Students in the University of Colorado College of Nursing DNP Program will complete an online portfolio to demonstrate achievement of DNP Essentials (2006) in the DNP scholarly project and DNP coursework. The portfolio will be helpful for developing the final scholarly presentation and may also be useful for future employers.

Using the online platform of choice, students will provide a brief introduction that describes their professional background and specialty focus. Each Essential in the DNP Essentials should be addressed with examples of how met or achieved through coursework and scholarly project. Academic papers, presentations, and other course documents should be included. Photos and graphics may be included to make more visually appealing. Any electronic portfolio platform may be used as long as it is accessible to others.
