

## Disclaimer: Nursing Certification and Licensure for Online Students Residing Outside of Colorado

### PLEASE READ THIS DOCUMENT CAREFULLY

Students who reside outside of Colorado and plan to enroll in any University of Colorado Denver | Anschutz Medical Campus (“The University”) online education course(s), degree, and/or certificate program that may lead to advanced nursing licensure are individually responsible for verifying that the program in which they intend to enroll meets the requirements for advanced licensure in their state. Online nursing students are strongly encouraged to contact the state licensing body from which he/she will be seeking recognition, referenced below, to ensure that their intended program of choice will meet all eligibility requirements for certification or licensure.

### State Specific Board of Nursing Contact Information

Title 34 CFR 668.72 states that an institution cannot make misrepresentation concerning the nature of an eligible institution's educational program that includes, but is not limited to, false, erroneous, or misleading statements concerning among other things:

- (i) on whether successful completion of a course of instruction qualifies a student to receive,
- (ii) to apply to take or to take the examination required to receive, a local, State, or Federal license, or a nongovernmental certification required as a precondition for employment,
- (iii) or to perform certain functions in the States in which the educational program is offered,
- (iv) or to meet additional conditions that the institution knows or reasonably should know are generally needed to secure employment in a recognized occupation for which the program is represented to prepare students.

As a result of the University’s approval to participate in the National Council for State Authorization Reciprocity Agreement (NC-SARA), the University has also agreed to notify, in writing, all students in a course or program that customarily leads to professional licensure, or which a student could reasonably believe leads to such licensure, whether or not the course or program meets requirements for licensure in the state where the student resides. If an institution does not know whether the course or program meets licensure requirements in the student’s state of residence, the institution may meet this SARA requirement by informing the student in writing and providing the student the contact information for the appropriate state licensing board(s).

The following information is intended to meet both requirements, as noted above. Each state listed below may modify its license and practice requirements at any time without notice. As such, the

## NOTES

<sup>1</sup> State approval of a program to offer Alabama licensed nurses' opportunities for advanced degrees does not indicate eligibility for approval to practice as an advanced nurse in Alabama. Applicants for approval in Alabama are required to meet the Alabama requirements for national certification, graduation from a specific-type program for the advanced practice approval, and completion of the appropriate application. More information can be found at [www.abn.state.al.us/](http://www.abn.state.al.us/)

<sup>2</sup> Nursing Education: In strict compliance with Oregon Board of Nursing regulations, The University of Colorado | Anschutz Medical Campus is only able to admit Oregon students into its Doctor of Nursing Practice program who are willing to complete their required clinical experiences in a state other than Oregon. Should students agree to complete their clinical experiences in another state, two requirements must be met: 1) The student must be currently licensed to practice as a registered nurse in the selected clinical state; and 2) CU Denver | Anschutz Medical Campus must be authorized by the clinical state's Board of Nursing to offer its Doctor of Nursing Practice program.
